

DEBRA PARDEE, AP

ACUPUNCTURE PHYSICIAN (NCCAOM)

Debra Pardee has been called a healer by many of her patients. She combines ancient medicine techniques with modern science. Her foundation is in Oriental Medicine, including acupuncture, herbology, and homeopathy. Upon that base, she has built a healing practice in DeLand that incorporates her extensive experience with acupuncture, nutrition, homeopathy, and other natural health-supporting approaches.

In her clinic, Debra works with patients to determine the cause of their symptoms, and determine a natural method to address that cause, ideally before drugs or surgery become necessary. She uses thousands-of-years-old formulas and “acupoints” that still work today, and the results and successes of which are well documented. She also offers nutritional counseling, homeopathy, herbal medicine, and more.

Debra’s clinic offers Acupuncture, Acupressure, Chinese Herbs, Bach Flower Remedies, Electro-Acupuncture, Lifestyle, and Nutritional Counseling to keep helping patients get healthy, be healthy, and stay healthy!

Through Acupuncture and integrative medicine, Debra works with patients to determine the cause of symptoms and determine a natural method to address that cause, rather than provide a band-aid approach and hopefully before drugs or surgery become necessary. Debra Pardee is a Diplomate of Acupuncture (NCCAOM).
